**June 26, 2020 @ 4:00 PM - 2nd Annual Martin Family Farms
Volleyball Tournament**

**Also this year we are adding a
corn hole tournament for those
who don't do volleyball**

**Master Griller Brian Martin will
provide dinner for all, menu
TBD.**

Here's some interesting facts about pigs that we pig farmers know to be true:

- A pig's squeal as be as loud as 130 decibels (that's 10 decibels higher than the sound of a jet engine)
- Adult pigs can run at speeds of 11 mph (they can run a 7 minute mile!)
- Pigs are known to be one of the smartest domesticated animals and are even smarter than dogs. They like routine
- Pigs are naturally clean and organized. If allowed enough room, they will create an area designated as the bathroom, and another area designated for sleeping
- Pork is the most consumed animal protein in the world at 40% of all the meat consumed, poultry ranks 2nd at 34%.
